**Subject:** DIRECTORS NOTIFICATION

FYI - Feedback related to the advisory e-mail distributed to you all on October 28, 2015 wherein our intentions were merely to protect your derrieres. I reached out to Mr. Fall prior to releasing the disclaimer. He advised me he would be off island until Friday and that I could contact Craig Huston. I also reached out to him but did not receive a reply. I have attached the notice which raised the concern. You can be the judge of the representation and the implied use of the information. We have respected the public in their desire to be engaged and a part of the solution. If this is research for their project then that is the way it should be dressed up. If it is a VIU student project then it should be presented in that manner. Also, to suggest that it will be used by the LIVFD is premature because the proposal has not crossed the desk of the Board and neither have option(s) for the Board to consider in response to the 911/dispatch solution. Now, this may be a misguided perception, but to commandeer the LIVFD resources by a member of the public is quite extraordinary. For the life of me I cannot see George Orchison walking into the City Fire Department and convincing fire fighters to follow him and begin to perform a city-wide fire alarm inspection process, and getting away with it. Nor any other member of the public assembling fire fighters to carry out a project of some sort. This type of activity is no doubt undermining the authority of your Fire Chief and may possibly dangerously dividing the membership.
